PRODUCT DESCRIPTION

Strainrite's [EVP \(Enhanced Vertical Pleat\)](#) filters are the product of years of successful, application specific filtration in a variety of industries, using the Model 8T as the genesis of the Value-Life Series.

By working closely with our distributor partners, and their valued customers, we have learned how to amplify the critical features that make the [EVP](#) the greatest value in the filtration marketplace today. With proprietary advances in pleat profile and rigidity, graded density materials of construction, and utilized surface area, no filter element provides equal filtration performance, life and loading capacity at a similar price.

OPTIMIZED PLEAT PROFILE

- 14 square feet (size 2) of media versus 4 square feet of media standard bag
- 7 square feet (size 1) of media versus 2 square feet of media standard bag
- Fits in standard size 1 and 2 size housings
