PRODUCT DESCRIPTION

The Strainrite Companies is known for developing some of the industry's most advanced designed hybrid cartridge elements on the market. These high efficiency filter elements require a vessel that has a hermetically sealed top to fully capture all of the filters capabilities. [The SRC Industrial Duty Cartridge Vessel](#) is perfectly positioned to handle standard cartridges and absolute rated filters.

The [SRC](#) has a machined surface that produces a positive seal to eliminate bypass. The [SRC](#) vessel line is raising the bar in the Original Equipment Manufacture market by delivering superior value in a cost-effective design.
